

Fire & Life Safety

Marina Safety Products

Staying true to our commitment for quality design and construction, Accmar Equipment is introducing two new marina safety products.

FIRE SAFETY CABINET: This 42" tall unit is designed to keep your fire extinguisher safely out of the way but handy when needed. The marine grade aluminum casing compliments our Power Pedestal and lighting products. Powder coated in Fire Engine red, this unit is designed to hold a general purpose 10lb fire extinguisher.

LIFE RING HOLDER: This accessory offers an easily accessible and eye catching alternative to storing your marina's life buoy. Made of the same durable marine grade aluminum as our fire safety cabinet.

FIRE SAFETY CABINET STANDARD FEATURES:

- Powder coated Fire Engine Red, inside and out, to guard against harsh marine & salt water conditions
- Built from 5052 marine grade aluminum with 1/8" wall thickness
- Measures 42" in height
- Equipped with photocell controlled, low glare, 7W fluorescent light LP-7 (frosted white lens), to illuminate the dock and make cabinet easy to locate. Available without light upon special request.
- One life ring holder (optional)
- Holds general purpose 10lb fire extinguisher (sold separately). Can be ordered with us.
- Housed behind a clear, polycarbonate panel on hinged door

LIFE RING HOLDER STANDARD FEATURES:

- Permanently installs to your dock with a 6" x 6" square base plate, pre-drilled with 4 holes
- Powder coated Fire Engine Red, inside and out, to compliment our Fire Safety Cabinet
- Measures 36" in height
- One hose holder accommodates one 20" life buoy (sold separately). Can be purchased with us.
